To whom it may concern :

I am pleased to recommend Brie Ellis for a position within your company. I have had the pleasure of teaching Brie in several CIT Developer courses over the last three years.

Brie has excellent technical and communication skills. She is able to work well independently or in a group setting. She developed complex applications in several courses independently and she actively participated in every group she was assigned to. Her presentation skills are also quite strong. She is able to put together a detailed presentation that is engaging and informative.

Brie has also demonstrated excellent time-management skills and a strong work ethic. One of the things that impressed me was her ability to successfully balance a demanding school schedule with her job responsibilities which are in the IT field.

Brie is a quick learner and hard worker. She will be an asset to your development team. If you have any questions, feel free to contact me.

Sincerely,

Lisa Balbach
